BOIL WATER ORDER FOR LAKE MORENA VIEWS A COMMUNITY WATER SYSTEM

Test Results Show Bacteria Present in Drinking Water Supply

The County of San Diego Department of Environmental Health (DEH) has issued a Boil Water Order for the Lake Morena Views Mutual Water Company in Campo, effective immediately. Water samples collected on July 10th, 12th, and 14th confirmed the presence of total coliform bacteria in the water supply. *E. Coli* bacteria was **absent** in the sample. Total coliform bacteria can come from soils and other sources in the environment, and can indicate a problem with the water supply system. The Boil Water Order was issued to ensure all water used by the residence is free from contamination. The boil water order will remain in effect until the distribution system has been disinfected and additional samples confirm the absence of bacteria in the water supply.

For more information on the Boil Water Order, please call Ben Carroll at 619-478-9188.
